BIOVAL DENSO PK 45-50

EFFICIENT

NPK MINERAL FERTILIZER 0-45-50

CE FERTILIZER

DECLARED CONTENT

Phosphorus (P_2O_5)	45,0% p/v
Potassium (K_2O)	50,0% p/v

PHYSICOCHEMICAL CHARACTERISTICS

Density: 1,7 gr/cc

pH (solution 10%): 7-8

PROPERTIES

High solubility mineral fertilizer in gel form for foliar application or fertirrigation. Neutral pH product. BIOVAL PK EFFICIENT 45-50 has a formulation particularly indicated to provide a suitable contribution of phosphorus and potassium in certain vegetative moments. Its adequate P-K ratio favors an optimum development of the fruit in size, color and flavor, as well as enhancing a correct lignification of shoots, favoring flowering. Indicated in CITRUS to increase caliber, advance ripening and implement the content of sugars. In OLIVE to increase caliber, oil content and hardness of the pulp. In VID for the maturation and general improvement of the quality and in VEGETABLES to increase size and quality.

RECOMMENDED GENERAL DOSE:

300-400 cc / hl depending on the crops and vegetative state

It is recommended, however, to follow the doses and applications established by their technicians at the field level, which will vary according to the type of crop, their extractions in fertilizer units and the phenological state of the same. From "Distribución del Levante Bioval, S.L." or through our agents or distributors we can advise you as to the use dose according to your culture.

STORAGE:

Store in a cool, dry place and not exposed to direct sunlight.
Do not store if product has been previously mixed.
Keep away from food, drink and animal feeding stuffs.
Do not stack more than 3 heights.
Use before 2 years of the lot date.
Precautions, risk phrases and safety: see label on packaging.
